BL0640G

bon appétit

FULL PALETTE OF FLAVORS

Blender Oursson BL0640G - device for grinding food. The blender feature is its design: jug with blades is set on a base with an engine inside. With it, you can make puree and mousse, crush ice, shake and mix drinks. Rotary knob with buttons will help you choose the grinding program, and set the desired speed from 1 up to 7 or select rapid mixing. Easy cleaning function will make maintenance of the device much easier and convenient.
