FE2103D

bon appétit

FULL PALETTE OF FLAVORS

Thanks to Oursson yogurt maker FE2103D, the main advantage of which is a beautiful 2-liter ceramic container with a hermetically sealed lid, you can prepare a beneficial natural yogurt, yeast dough and different drinks, based on an incomplete alcoholic fermentation. High-quality ceramics, which distributes and stores well both heat and cold, perfect for the preparation and storage of dairy products. In addition, it is worth to mention that the device has a cooking time indication on the display, countdown timer and a sound signal when the preparation is finished.
