PALETTE series

## FULL PALETTE OF FLAVORS

Fashionable kitchenware... That's exactly what can be said about PALETTE series from Oursson. Simple and daring combination of the latest technology and design allows this kitchenware to be a bright touch to your interior, in addition to all its culinary merit. This series is made of a high quality cast aluminum, does not contain dangerous composites, has a non-stick ceramic coating inside and outside. Induction bottom allows you to use this kitchenware on all surfaces, including induction plates. Kitchenware can be not only practical and useful, but also stylish, as her mistress!

### Non-stick coating ANIONIC CERAMIC

**anionic**  
ceramic

The anionic ceramic coating ANIONIC CERAMIC diffuses infrared waves, which have a benefic action on the human organism. These waves improve the food taste qualities and properties. The use of negatively charged ions (anions) in the coating can reduce the cooking time and reduce the loss of nutrients. Due to anions of the PALETTE series, the prepared food can be stored for a longer time. The anionic ceramic coating ANIONIC CERAMIC is very durable, resistant to mechanical effect (scratching), heat-resistant and it's easy to clean with warm water.

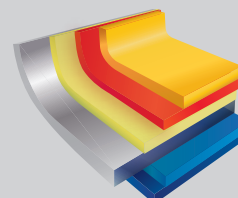

Contains no dangerous composites such as lead, perfluorooctanoic acid and cadmium

Ecological

Low levels of carbon emissions

- Anionic coating
- Ceramic coating
- Basic ceramic coating
- Aluminum body
- Basic ceramic coating
- Ceramic coating
